STATEMENT INACTIVE STATUS-RT (4/18/07)

MEMORANDUM

TO: FILE

FROM: WHALEN TOY
Water Resources Control Engineer
Data Management Unit - Statement Program
Division of Water Rights

DATE: April 26, 2007

SUBJECT: UNDELIVERED SUPPLEMENTAL STATEMENT OF WATER
DIVERSION AND USE (STATEMENT) S009766.

The U. S. Postal Service returned Supplemental Statement S009766 to the Division of Water Rights (Division) as "*not known- unable to forward*" Division staff subsequently used Parcel Quest™ and/or 411Locate™ on-line services in an attempt to identify current ownership of the diversion property, but were unsuccessful.

The water diverter is responsible for keeping the Division informed of any address or ownership changes. Because Division staff was unable to verify current ownership, S009766 has been designated as an inactive diversion, and has been coded as such in the Division's database. Unless notified by the current owner(s) or their agent, the Division will no longer issue a Supplemental Statement for S009766.

Attachment: Supplemental Statement
Returned Envelope

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

Arnold Schwarzenegger
Governor

TO ALL WATER USERS FILING SUPPLEMENTAL STATEMENTS OF WATER DIVERSION AND USE MARCH 2007

Enclosed is your Supplemental Statement of Water Diversion and Use form (Supplemental Statement) for the years **2004, 2005, and 2006**. All Supplemental Statements should be completed and postmarked no later than **JULY 1, 2007** for delivery to the State Water Resources Control Board, Division of Water Rights (Division). Please review the information in the upper half of the enclosed Supplemental Statement(s) and make any corrections or additions in red ink or pencil (e.g., corrections to current ownership, address, phone number, agent, etc.) so that the Division's database record(s) can be updated.

A separate Statement of Water Diversion and Use form is required for each point of diversion. If the location of the existing point of diversion, as identified on the Supplemental Statement form, has changed, please identify the new location. However, if you have developed a new point of diversion, in addition to the existing point of diversion, please contact the Division for a separate form to record the new diversion.

If you do not file a Supplemental Statement, your use will be considered inactive and it will be recorded as such in the Division's database, and the Division will no longer mail you Supplemental Statements. If you wish to reactivate an inactive Statement in order to record your diversion and use of water, please contact the Division.

If you have any questions or need assistance, please contact me at (916) 341-5376 or at brigby@waterboards.ca.gov.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

- "Statements of Water Diversion and Use"
- "Information Pertaining to Water Rights in California"
- "Water Rights for Stockponds Constructed Prior to 1969"
- "Appropriation of Water in California"

STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS
STATEMENT OF WATER DIVERSION AND USE

S 9766

This statement should be typewritten or legibly written in ink.

A. Name of person diverting water H.D. and Lucille E. Turner
Address PO Box 521 Big Bear Calif 96010 Telephone: 916-623-2919

B. Name of body of water at point of diversion Deer Creek
Tributary to Trinity River

C. Place of diversion S W 1/4 S W 1/4 Section 31, Township 34N, Range 12W, MD B&M,
Trinity County, or locate it on sketch of section grid on reverse side with regard to section
lines or prominent local landmarks.

D. Name of works Deer Creek Stop Gap (a portion of the 1886 C.J. Johnson

E. Capacity of diversion works 100 plus 8 PM operation
Capacity of storage reservoir _____
State quantity of water used each month in gallons or acre-feet

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual
1978	X	X	X	X	X	X	X	X	X	X	X	X	

If monthly and annual use are not known, check months in which water was used. State extent of use in
units, such as acres of each crop irrigated, average number of persons served; number of stock watered, etc.

Maximum annual water use in recent years Unknown gallons
acre-feet

Minimum annual water use in recent years Unknown gallons
acre-feet

Type of diversion facility: gravity _____, pump _____

Method of measurement: weir _____, flume _____, electric power meter _____, water meter _____, estimate X

F. Purpose of use (what water is being used for) Irrigation on Domestic use homes

G. General description or location of place of use (use sketch of section grid on reverse side if you desire)

Hwy 299 W in small community of Big Bear across Trinity River from the mouth
of Deer Creek

H. Year of first use as nearly as known Prior to 1946 Recorded 9/17/1986 in Books of Miscellaneous
Record page 334

I. Name of person filing statement H.D. and Lucille E. Turner

Position Owner Organization _____

Address PO Box 521 Big Bear Calif 96010 Telephone 916-623-2919

I declare under penalty of perjury that the above is true and correct to the best of my knowledge and belief.
